BTG Pactual Europe Management Company S.A. (the “Company”) currently does not consider adverse impacts of investment decisions on sustainability factors (“Principal Adverse Impacts” or “PAIs”) at entity level. The Company makes investments whose impact on sustainability factors is negligible. In addition, given the size, nature, and scale of the Company’s activities, implementing a full PAI framework would not be proportionate at this stage.

The Company reserves the right to take into account PAIs on sustainability factors in its investment decisions in the future and to disclose these in the format of the template set out in Annex I of the Regulation (EU) 2022/1288.

Nevertheless of the above, certain financial products managed by the Company may consider principal adverse impacts on sustainability factors at product level, as disclosed in the relevant product documentation.

Where applicable, the consideration of PAIs at product level is described in the relevant pre-contractual, website and periodic disclosures applicable to the respective financial product.
